RE: TREATMENT

I came to Dr. Dhutia hoping that she would be able to help me with severe migraines and back pain made worse by another Doctor. I was very skeptical about Chiropractors at this point because of my prior experience, but after my first visit her professional and friendly manner put me at ease. She listened to my needs, assessed my condition on an ongoing basis and adjusted the type of treatment as needed. She relieved the symptoms of several conditions within a week and has since reduced my migraines significantly. I would say because of her treatments my quality of life has improved dramatically.

Thank you,

Teresa
